I am really just beginning my career as an artist – having left my corporate life as an executive of a London-based marketing company to begin working on art fulltime in January 2005. In the past 3 years, I have been well-received – I have been able to sell 200 pieces to individuals – and additionally, another 300 pieces for resale.

I began by exhibiting in local establishments (coffee shops & restaurants) and through a friend I picked up an interior design store in Beverly Hills, which in turn, led to representation through a corporate art dealer in the Los Angeles Design Center. In late 2005, I began working on the infrastructure of my business – moving into a proper studio, getting proper licenses, tax id #s and began working with photographers, and framers. In the past year and a half, I have focused on participating in shows and getting recognition both in Colorado and nationally.

Over the past 3 years, I have sold and/or exhibited with the following establishments:
