

Meet the Artist

Theophanes Andokides (T. Andy)

T. Andy was born in Paramythia Greece in 1943. Always interested in things artistic he and his sisters spent many hours assisting their parents in their pottery business. As a young man he moved to Amsterdam where he worked with other colleagues who shared his passion for art.

His unique impressionist style and use of subtle color has created a high demand for his work. Andy is a master at small works. His use of loose brush strokes give his oils a look that is almost abstract at close examination but from a distance incredible detail appear. His style continues to evolve.

Andy maintains a studio in Frankfurt Germany where he provides work for distribution to the United States. Works of T. Andy have been sold throughout Europe for more than a decade and in the United States since 2001.
